FINANCIAL AGREEMENT

While providing the very best quality of dentistry, we strive to keep our fees fair. When treatment is rendered, we ask that you pay at the time services are provided. If you have a dental insurance plan, please ensure that we have the correct and up-to-date insurance information.

Our goal is not to let expense prevent you from benefiting from the quality of care you desire and need. To facilitate this goal we have developed the following financial options:

- Major credit cards such as Visa, MasterCard, Discover and American Express are accepted in our office, as well as cash and checks.
- We also work with Enhance Patient Financing if payments are necessary.

Our office will review your recommended treatment and treatment options prior to any work being done.

Insurance

Our practice accepts all Dental PPO insurance plans, and is contracted with most. We do our best to estimate the amount we expect your insurance to pay and the amount we estimate to be your portion.

I have read the above and understand that financial arrangements must be made in advance. I also understand that dental services furnished to me are charged directly to me and that I am personally responsible for payment of all dental services regardless of insurance. If I carry insurance, I understand that this office will help prepare my insurance forms and assist in making collections from insurance companies and will credit such collections to my account. However, this dental office cannot render services on the assumption that charges will be paid by an insurance company.
